Academic Year: 2026–2027.

System Actors

The Online Pizza Ordering System allow **Customers** to pickup the order from the restaurant so the delivery services not included.

It has three main actors who interact with the system:

1. Customer: The customer can create an account, log in, view the pizza menu, choose pizzas and toppings, add items to the cart, place orders, select a pickup time, and check the order status.

2. Restaurant Staff: Restaurant staff are responsible for viewing new orders, preparing pizzas, updating order statuses, and giving completed orders to customers when they arrive at the restaurant.

3. Administrator (Admin): The administrator manages the system by adding, updating, or removing pizzas, prices, and toppings.

The admin can also manage user accounts, view orders, and set available pickup times.
